

# GLACIER

- 90/10 Pure Down with a minimum fill power of 675
- Drilite® Loft outer shell is durably water resistant to keep snow and moisture at bay
- NEW lighter Ultrasoft lining is durably lightweight and soft next-to-skin
- Supplied with lightweight stuff sack and large mesh storage sack
- Trapezoid baffle construction maximises down loft and minimises migration
- Anatomical hood with HALO baffle to prevent cold spots around head
- 3-Dimensional neck collar and integrated zip baffles help to prevent cold spots and heat loss around the neck
- 5 baffle Bulls-Eye foot piece and Sharks Toe design
- Gemini neck and zip baffles fuse high quality down and synthetic insulation
- Full length side zip with anti-snap baffle

## Notes

Women's models have higher concentration of down in foot baffles

**UPDATED**

**DRILITE**  
LOFT

DOWN 675+

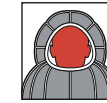

Drilite® Loft was originally developed specifically to meet the requirements for an exceptionally light, highly breathable and water resistant shell that would be able to protect down fill inside sleeping bags and clothing. All of our Drilite® Loft fabrics are now exceptionally light (many weighing as little as 55 g/m) and use a microporous water resistant Drilite® coating to offer exceptionally high levels of moisture permeability. Hydrostatic Head: 1500mm.

The down used in these bags is ethically sourced 90% Pure Down which is carefully blended to ensure quality. Each batch is individually tested at point of filling the bags to ensure a minimum fill power of 675 cubic inches.

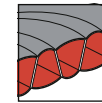

### Sharks Toe Foot

Reduces compression of insulation and allows feet to lie in a natural position.

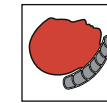

### Anatomical Hood

Carefully shaped profile to maximise comfort and heat retention.

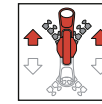

### Trapezoid Baffles

A modified V baffle using less fabric whilst holding down where its needed most.

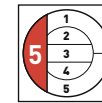

### 3-Dimensional Neck Collar

Ergonomic baffle that sits comfortably around your neck to retain maximum heat.

### 2-way Locking Zipper

Allows the bag to be opened from either end - features self locking zip-pulls.

### 5-baffle Bulls-Eye Foot Piece

5 individual baffles to keep your feet warm and allow down to loft more effectively.

Mountain Equipment bags are independently tested and all temperatures stated correlate to EN13537
